### DETAILED ACTION

1. This office action is in response to Applicant's after final amendment filed on 28 March 2007.

#### ***Election/Restrictions***

2. Claims 8, 10-14, and 17-22 are allowable. The restriction requirement between distinct species, as set forth in the Office action mailed on 8 March 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 8 and 10-14 are directed to a species no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Patent 1,896,840 to Dawson, which was applied to the claims in the office action mailed 2 January 2007. Suffice it to say, the patent to Dawson does not disclose "said first and second end portions being ... bent over about a common fold line to present a longitudinally facing surface which is blunt" as claimed in independent claim 17, and as such does not anticipate the instant invention as disclosed in independent claim 17.

Furthermore, there is no combinable teaching in the prior art of record that would reasonably motivate one having ordinary skill in the art to so modify the teachings of Dawson, and thus, for at least the foregoing reasoning, the prior art of record does not render obvious the present invention as set forth in independent claim 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric A. Gates whose telephone number is 571-272-5498. The examiner can normally be reached on Monday-Thursday 7:45-6:15.
